Dear Business owner or friend;

Re: Spray and Play Project

Community Fit Ltd (CFL) is a non-profit, volunteer group dedicated to raising funds for active based projects and events for Thorsby Village and County residence. Funding that is raised through our association goes to fitness equipment, funding upgrades at the Thorsby Recreation Centre, funding fitness related events like the CFL Woman's Health and Fitness Day and funding an outdoor trail system, Thorsby Network of Trails. We host many fun family events and fitness opportunities for the community. With our projects we hope enhance current programs, provide equipment for the community weight center; to encourage active living in the community; to encourage teens to get active and get away from gaming; to enhance free play for the local kids through our Spray and Play project.

CFL is now raising funds to **build an outdoor Spray and Play area at the Thorsby Recreation Complex**. Our current play area consists of an older wooden play station suited for children over the age of 5. There is no equipment for toddlers, there is no designated shaded picnic area and limitations to what exists. We would like to increase the outdoor free play in our community. This project consists of installing several toddler pieces of equipment, building a covered "gazebo" picnic area, building a dirt peddle bike track, installing new playground equipment and building a small spray park with several water features including a water journey geared to toddlers. This project will reach every age of child in our community. To date we have raised over \$5,000 however the current fundraising that our association is involved in is insufficient for the project we are undertaking. With an estimated Spray and Play proposal cost at over \$200,000 we hope to attain government grants to pay for half of the project.

Here is an opportunity for you, as a business, community employer or friend, to help us in our fundraising efforts. How? *Our project requires cash donations as well as donations of labor, concrete/sand or equipment.* By helping fund our Spray and Play project you will be creating opportunities for fun, imagination and new challenges for the children in our community. Our goal is to provide a fun and safe play area that inspires our children to stay active at no cost to them. Attached are some pictures of the proposed equipment, a budget of costs and a form to fill out if you would like to help make this project happen.

Support from individual donors, businesses and corporations are greatly appreciated and are very important to our project. If you have any questions or concerns, please call Sherri at (780) 789-2601 or email communityfit@gmail.com

Sincerely,

A handwritten signature in black ink, appearing to read "Sherri Morrissey".
